

SYED ABDURREHMAN

Specialist in Video Post-Production, Graphic Conceptualization, and Artificial Intelligence Integration

 **Digital Portfolio:** abdurrehmaneditor.vercel.app  **Telephone:** +92 332 4112404 | 

Electronic Mail: syed4abdurrehman@gmail.com  **Operational Domicile:** Pakistan (Remote Operations)

EXECUTIVE SUMMARY

It is hereby stated that standard operational procedures of footage compilation are eschewed in favor of the systematic engineering of audience retention. Possessing an established tenure commencing in 2023, specialized focus is directed toward the utilization of visual pattern interruptions, cognitive hooks, and psychologically optimized pacing. Particular expertise is maintained in the kinetic sequencing of automotive subject matter and the synthesis of overarching brand identity matrices to maximize average view duration.

QUANTIFIABLE PERFORMANCE INDICATORS

- **Audience Retention Optimization:** Verifiable algorithmic success is consistently maintained concerning high-velocity media distributions.
- **Output Volume:** Successful delivery of an excess of fifty highly refined short-form video artifacts, heavily prioritizing cinematic automotive media.
- **Artificial Intelligence Workflow Efficacy:** Integration of advanced prompt engineering ostensibly reduces post-production turnaround durations while preserving aesthetic integrity.

TECHNICAL COMPETENCIES

- **Primary Post-Production Apparatuses:** Adobe Premiere Pro (precision timeline assembly, asynchronous L/J cuts) and Adobe After Effects (spatial tracking, motion blur synthesis).
- **Supplementary Protocols & Colorimetry:** CapCut, Descript, and DaVinci Resolve.
- **Artificial Intelligence Integrations:** Veo2, Veo3, ElevenLabs, Midjourney, HiggsField, RunwayML, Hailuo, and Kling AI.
- **Static Graphic Conceptualization:** Adobe Photoshop, Adobe Illustrator, and Canva Professional.

CHRONOLOGY OF PROFESSIONAL TENURES

Independent Contractor: Video Editorial and Graphic Design Specialist *Self-Employed* |

2023 – Present

- Engineered highly optimized video assets and comprehensive design kits, heavily prioritizing high-energy automotive content via rigorous spatial tracking and beat-based auditory synchronization.
- Deployed artificial intelligence-enhanced editing schemas to manifest otherwise unfeasible visual compositions.

Video Editor for Post-Production *Zsideo* | *2022 – 2023*

- Transformed extensive volumes of unprocessed documentary and promotional footage into cohesive, engaging narrative structures under stringent institutional deadlines.

ACADEMIC FOUNDATION

- **Bachelor of Science in Computer Science (BSCS)** | *Virtual University* | *Currently Enrolled*
(*Second Semester*)
